

**CAMPAIGN
\$30 MILLION**

**+ FOR YOUR
HOSPITAL**

Fondation
Hôpital Charles-LeMoyne

A **+** for your Hospital

fhclm.ca

Hôpital Charles-Le Moyne is the **only university hospital centre in the Montérégie**.

For 60 years, it has been offering specialized and highly specialized hospital and ambulatory care, and training students in medicine, nursing and other multidisciplinary sectors.

Each day, more than **3,000 employees** walk through the Hospital's doors, ready to save lives. The Hospital serves 1.5 million people, that's **nearly 20% of the Québec population**.

Hôpital Charles-Le Moyne is recognized as a **referral centre** in several fields, and patients come from across Québec to receive care.

MEETING HEALTH CHALLENGES

In Québec and around the world, hospitals are facing growing costs, ageing populations and an exhausted workforce. It's **more urgent than ever to work together** to meet growing needs and unprecedented health challenges.

Sarah Petty, patient and participant in the Horizon 4 Saisons mental health program.

BY INVESTING IN THE **+** FOR YOUR HOSPITAL CAMPAIGN, TO RAISE \$30 MILLION, YOU:

- + Open the door to **the best in leading-edge technologies** to reduce wait times for surgeries and the length of hospital stays.
- + Improve access to health for vulnerable clientele by supporting **clinical research** and by training **the next generation of medical practitioners**.
- + Provide tools to **people suffering from mental health problems** to help them overcome life's challenges.
- + Ensure that **cancer patients** have access to state-of-the-art treatments, personalized care and precious support services.
- + Make **the patient experience** more pleasant through complementary treatments and technologies that allow for less invasive procedures.
- + Support new development projects that address Hôpital Charles-Le Moyne's **most urgent needs**

“ Taking action to meet the most pressing needs.

In response to the current challenges in the health system, Fondation Hôpital Charles-LeMoyne has positioned itself on the side of **transforming health care**. Technological advances, medical knowledge and robotization are opening new opportunities for the medicine of tomorrow.

Our objective is **to support exceptional quality care close to home**. An offer that's aligned with the highest standards of contemporary medical practice. An offer that responds to the specific needs of our community and to the major health challenges of our time.

I'm a business leader, and dozens of my employees live and work in the Montérégie. I'm also a father and a resident who holds the health of my family, friends, colleagues and neighbours dear to my heart. So, for me, supporting Hôpital Charles-Le Moyne makes all the sense in the world.

At the Foundation, **we work hand in hand** with the Hospital's managers, physicians, health workers and YOU, our impactful partners. Together, we identify the most pressing needs and aspire to **find the best solutions** for offering our patients the best health care—**close to home**.

Benoit Lemieux

President of the Board of Directors
Chair, **+** For Your Hospital Campaign
Fondation Hôpital Charles-LeMoyne

+ INNOVATION

YOUR DONATION IS AN INVESTMENT IN INNOVATION. IT REPRESENTS A STEP TOWARDS THE FUTURE. IT TESTIFIES TO AN UNSHAKEABLE COMMITMENT TO UNEQUALED QUALITY CARE FOR EVERYONE.

Hospitals are under constant daily pressures. Yet, in a constantly changing world, it's crucial to take the long-term view. The government, which funds basic standard equipment, is a critical partner. But each hospital has its own areas of expertise and its own needs. That's where your contribution is essential.

Your investment goes beyond simply funding health care. It supports the ongoing development of Hôpital Charles-Le Moyne, where innovation is the norm. The knee robot is a perfect example. In a world that's constantly changing, a substantial investment in robotics is inevitable in the coming years. The growing presence of robots in the operating room offers the promise of faster, more precise and safer procedures. It's revolutionizing medicine to the benefit of more and more patients.

The robot allows **Dr. Nguyen** to personalize every procedure to the unique anatomy of each patient—with unmatched precision.

“ The knee robot is revolutionizing the way we perform knee surgery.

Dr. Hai Nguyen
Orthopaedic Surgeon

WHAT IS THE KNEE ROBOT?

Hôpital Charles-Le Moyne is the first Francophone public hospital in Québec to obtain a revolutionary orthopaedic surgical robot! This \$1.2 million purchase, funded by your exceptional generosity, represents an incredible advance for knee surgery.

DEVELOPMENT PROJECTS

“ The Da Vinci Robot is a game changer! It changes practices, in particular in urologic surgery, in thoracic surgery and in gynecological surgery. It will give access to ultra-specialized care for the most complex cases, close to home.

Dr. Omar Touhami

Chief of the Gynecology
Oncology Service

Cancer is the leading cause of death in Quebec. One in two people will develop cancer in their lifetime.

At the request of the Hospital and its urology, gynecology and thoracic teams, Fondation Hôpital Charles-LeMoyne has committed to raising **\$3 million** to transform the future of cancer care at the Hospital.

With your generosity, every surgical intervention will become safer, + effective, and less invasive — ensuring a better quality of life for our patients. You will help make Hôpital Charles-Le Moyne the first hospital to acquire the 5th generation Da Vinci Robot, placing us at the forefront of university hospitals.

Every surgical intervention will become safer, + efficient, and less invasive—ultimately improving our patients' quality of life.

INNOVATION IN CARE, THAT'S YOUR IMPACT!

+ RESEARCH AND TEACHING

WHEN YOU FUND CLINICAL RESEARCH PROJECTS AND INNOVATIVE TEACHING INITIATIVES, YOU'RE HELPING TO DRIVE HÔPITAL CHARLES-LE MOYNE'S DEVELOPMENT.

Clinical research and teaching are vital for medicine. It's costly but necessary if we're to offer top-notch medical care.

Hôpital Charles-Le Moyne contributes to building solid foundations for the advancement of medical knowledge. Did you know that:

- + the Hospital introduces new research protocols every week?
- + dozens of physicians teach medicine at the Hospital?

- + Université de Sherbrooke recently opened a new medical campus, including a new high-fidelity simulation room, right across from the Hospital?
- + the Centre de recherche Charles-Le Moyne is the only health research centre in the Montérégie?

Research and teaching are at the heart of our Hospital's university mission.

“ The high-fidelity simulation room is a unique and concrete opportunity for us to invest in health and support a new generation of physicians in a lasting way. We wanted to make this donation in our lifetime so that we can enjoy seeing the project take shape.

Louise and Denis S. Arcand
Residents of Brossard and Donors

WHAT IS THE SIMULATION ROOM?

This new room, one of the most modern in Québec, is a risk-free environment that allows students to be evaluated as they handle situations that require composure and the ability to make the right decisions.

The simulation room is an innovative and revolutionary tool for diagnostics and physician training!

Dr. Louis-Patrick Haraoui
Microbiologist-Infectiologist, Anthropologist, Health Innovation Researcher and Assistant Professor in the Faculty of Medicine and Health Sciences at Université de Sherbrooke.

DEVELOPMENT PROJECTS

“ The molecular biology and social science laboratory—the first in Canada—will be a major research hub, allowing us to push the boundaries of medical research.

Dr. Louis-Patrick Haraoui
Anthropologist, medical microbiologist and infectious disease specialist

Every day, infections that were once benign are becoming deadly due to antibiotic resistance. At Hôpital Charles-Le Moyne, we have a solution: combining artificial intelligence and microbiology to revolutionize the fight against this silent pandemic.

To respond to this urgent challenge, the Foundation has committed to raising **\$1.7 million** to create a Research Chair and a leading-edge microbiology and social science research lab to stop the growth of antibiotic resistance.

Your donation will transform lives. You'll be part of a research and university teaching revolution at Hôpital Charles-Le Moyne!

SUPPORT HÔPITAL CHARLES-LE MOYNE, A MAJOR RESEARCH AND UNIVERSITY TEACHING HUB!

+ HIGHLY SPECIALIZED CANCER CARE

YOUR SUPPORT IMPROVES THE HOSPITAL'S ABILITY TO RESPOND TO THE NEEDS OF CANCER PATIENTS. YOU IMPROVE THEIR QUALITY OF LIFE. AND THEIR CHANCES OF SURVIVAL.

Cancer is the leading cause of mortality—and responsible for one-third of all deaths. Even though new treatments are being discovered all the time, there's still so much to be done to improve the quality of patient care, their care experience and their quality of life.

The Hospital's development is driven by its commitment to continuously improving cancer care and highly specialized environments. Leading-edge equipment, such as the neurosurgical laser, reduce surgical wait times and the length of hospital stays. This means the Hospital can increase access to care, and treat more patients. Investments in the ongoing development of the skills of our medical staff and the well-being of our patients guarantee high quality, high-precision medical procedures.

Dr. Ramez Malak, neurosurgeon.

“ I know that I won't die of old age in 50 years, but I'm grateful to be able to fully benefit from the moments I have left. Thank you from the bottom of my heart.

Vincent Lessard

Patient with a stage-4 tumour who benefited from surgery with the new laser

WHAT IS A NEUROSURGICAL LASER?

This revolutionary technology destroys brain tumours without having to open up the cranium.

DEVELOPMENT PROJECTS

“ It is a must! It's necessary for patients, for the Hospital, for the South Shore, for teaching, for research, for recruitment. It's become the standard treatment—everywhere.

Dr. Mehdi Tahiri

Thoracic Surgeon

Cancer is the leading cause of death in Quebec. One in two people will develop cancer in their lifetime.

At the request of the Hospital and its urology, gynecology and thoracic teams, Fondation Hôpital Charles-LeMoyne has committed to raising **\$3 million** to transform the future of cancer care at the Hospital.

With your generosity, every surgical intervention will become safer, + effective, and less invasive — ensuring a better quality of life for our patients. You will help make Hôpital Charles-Le Moyne the first hospital to acquire the 5th generation Da Vinci Robot, placing us at the forefront of university hospitals.

**OFFERING + THERAPEUTIC
OPTIONS, OFFERING + HOPE!**

+ SUPPORT FOR MENTAL HEALTH

BY JOINING OUR INITIATIVE TO PROMOTE MORE ACCESSIBLE MENTAL HEALTH SERVICES, YOU'RE HELPING + PEOPLE FIND A PATH FORWARD.

One person in two suffers from a mental health problem at some point in their lives. And waiting lists are a mile long—for people struggling with suicide, experiencing a break-up, having serious difficulties at school, at work or at home. Your support is helping them overcome life's challenges.

As an organization, we need to diversify our ways of doing things and get off the beaten track. At the Foundation, we believe in innovative approaches, like Horizon 4 Saisons. A therapeutic initiative that has proven itself on the ground. We aspire to building a future where mental health is a clear priority.

Aimy, participant in the Horizon 4 Saisons mental health program, and her father, Jean-Bruno Langdeau.

“ Horizon came into our lives at a very discouraging time. For us, it was the most amazing gift. Thank you from the bottom of my heart.

Jean-Bruno Langdeau
Aimy's father

WHAT IS HORIZON 4 SAISONS?

An innovative therapeutic intervention program that gives teens an adventure in nature.

Raven, 16-year-old patient.

DEVELOPMENT PROJECTS

“ Caring for the visible to help heal the invisible. Improving the living environment within the Department of Mental Health will have a direct impact on patient recovery and length of stay.

Martin Tétreault
Director of Mental Health Programs

One in five people will need mental health services at some point in their lives. This reality is closer to us than we think — it affects our parents, our siblings, our children, our friends, our colleagues.

The Fondation Hôpital Charles-LeMoyne has committed to raising **\$1.5 million** to improve the well-being of psychiatric patients and the staff who care for them.

By making a donation, you will improve the well-being of both patients and staff at the Department of Mental Health at Hôpital Charles-Le Moyne — the second largest mental health inpatient center after the Douglas Institute, and the largest psychiatric unit within a general hospital in Quebec.

**HELP US BUILD
A HEALTHY GENERATION!**

+ WELL-BEING FOR PATIENTS AND CARE STAFF

IMAGINE A TIME WHEN PATIENTS WILL HAVE ACCESS TO SURGERIES THAT ARE + FAST, + EFFECTIVE, + PRECISE, WITH EVEN BETTER RESULTS THANKS TO MORE ADVANCED TECHNOLOGIES.

A Hospital visit or stay can be a source of major stress for patients. Staff shortages, not enough beds, limited operating room time—all of this adds to that stress. Patient well-being is intimately tied to the well-being of our care staff.

Patient well-being is achieved through technologies that allow for less invasive procedures. It is also achieved through complementary treatments, such as multi-sensory room, massage therapy and cancer comfort kits. For care staff, access to leading-edge equipment allows them to work in the best possible conditions. And translates into + precision, speed, safety and success.

Our hospitalized seniors escape the daily grind for a sensory experience imbued with calm, humanity and beauty.

“ The multi-sensory room helps reduce aggression and apathy, stimulate their senses, ease their pain, improve their sleep and encourage sociability. Thanks to you, our elderly patients will recover faster!

Ysabelle Grégoire-Arbour
Head of the General Medicine Unit

WHAT IS A MULTI-SENSORY ROOM?

A multi-sensory room is a relaxing room equipped with technology to stimulate the senses and encourage patients hospitalized at the geriatric unit to move as a means to reduce the stress that comes with hospitalization.

Sylvie Bard, patient.

DEVELOPMENT PROJECTS

“ This redevelopment will transform access to essential exams for thousands of patients. By enabling faster and + accurate diagnoses, it will help deliver the right care + quickly.

Dr. Jean-François Cloutier
Chief of Surgery

At the request of the ENT, gynecology, and urology teams, the Fondation Hôpital Charles-LeMoyne has committed to funding the development of a brand-new space on the 6th North floor to bring together all non-digestive endoscopic procedures.

This **\$2.6 million** project will increase access to specialized exams—especially those crucial for early cancer diagnosis—reduce wait times, and offer patients a welcoming and modern environment that aligns with best clinical practices.

Thanks to your generosity, this new space will become a reality. You will help meaningfully improve the care journey of thousands of patients while also supporting university teaching and the recruitment of medical specialists at Hôpital Charles-Le Moyne.

JOIN US IN IMPROVING THE PATIENT EXPERIENCE!

+ SOLUTIONS FOR EMERGING NEEDS

SUPPORT NEW DEVELOPMENT PROJECTS TO MEET THE MOST URGENT NEEDS OF THE HÔPITAL CHARLES-LE MOYNE.

To meet the hospital's most urgent needs and accelerate its development, it is essential to remain agile, seize new opportunities, and invest in tomorrow's solutions. To achieve this, we must test new ideas and implement approaches tailored to our community.

Your commitment makes pilot projects, like EZResus, and strategic local investments possible. Thanks to you, we transform ideas into concrete progress. You are at the heart of our ability to dream and achieve new things, for the benefit of our patients.

Young patient being resuscitated by the team of Dr. Frédéric Lemaire, inventor of the EZResus app, at the Hospital's Emergency.

“ You're the spark that allows us to save even + lives in Emergency by making resuscitation easier.

Dr. Frédéric Lemaire
Emergency doctor and creator of EZResus.

WHAT IS EZRESUS?

It's the only mobile app of its kind in the world. One day, it will hold all the medical knowledge on resuscitation. Its ongoing development, assisted by artificial intelligence, will make it even + effective in a context where every minute counts.

DEVELOPMENT PROJECTS

“ I can promise you this: we will become a referral centre in general pediatrics. Where each child receives the right care, at the right place, at the right time.

Dr. Jean-Baptiste Roberge
Pediatrician

At the moment, children who need tests, intravenous treatment or complex medical follow-up have to be hospitalized for several days. But this is not always necessary. This is where the day centre comes into play.

It's a place with a friendly atmosphere that's adapted to their needs. A place where children come in the morning, receive the care they need and go home in the evening.

The Foundation has committed to raising **\$500,000** to make this day centre a reality for the new pediatric unit.

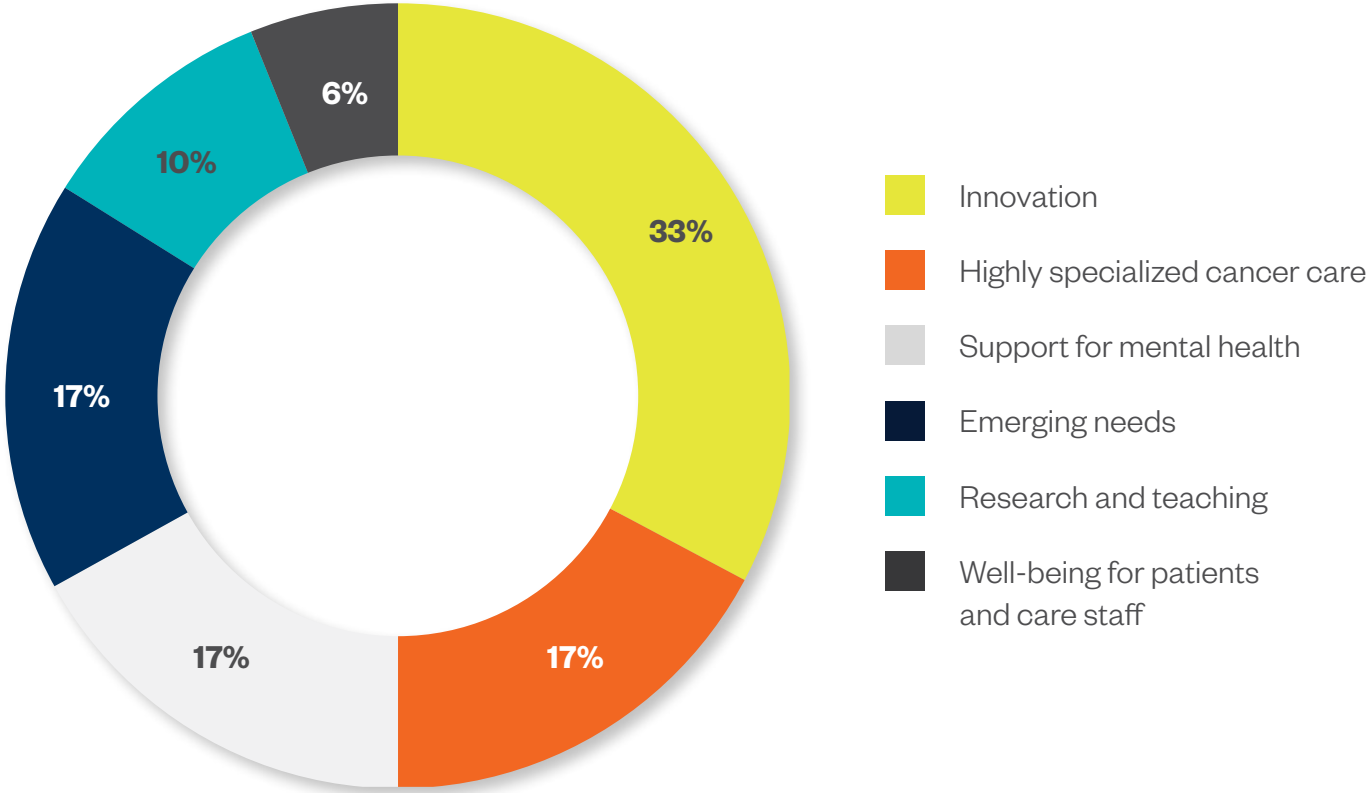

By giving, you'll offer + gentleness to our little patients and their families.

ACCELERATE THE DEVELOPMENT OF THE HÔPITAL CHARLES-LE MOYNE

Louis, patient.

TABLE OF NEEDS

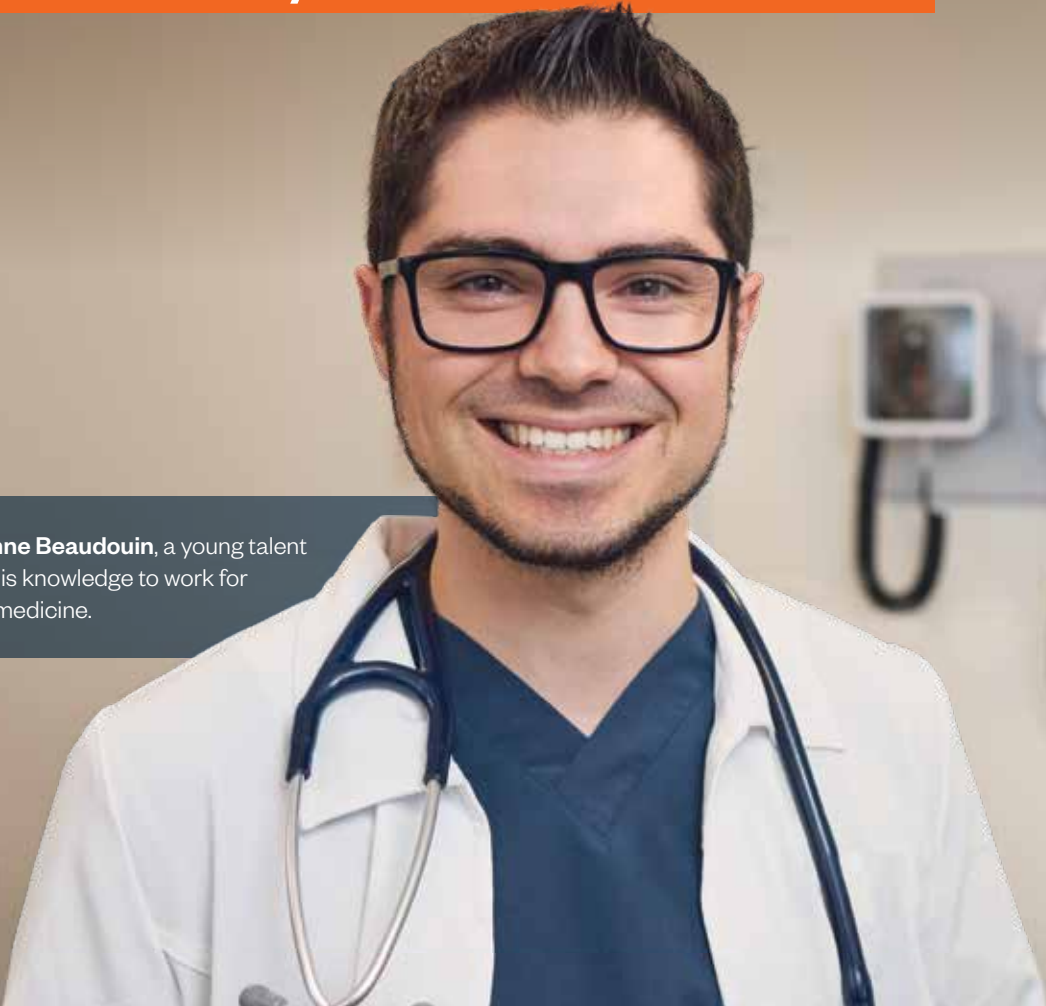

INNOVATION Pushing the limits of medicine by investing in bold initiatives and robotics	\$10 million
RESEARCH AND TEACHING Supporting Hôpital Charles-Le Moyne in its role as a major research and university teaching hub	\$3 million
HIGHLY SPECIALIZED CANCER CARE Improving the quality of patient care and offering more treatment options	\$5 million
SUPPORT FOR MENTAL HEALTH Increasing access to mental health services to build a healthier generation	\$5 million
WELL-BEING FOR PATIENTS AND CARE STAFF Improving the patient experience by investing in less invasive technologies and complementary therapies	\$2 million
EMERGING NEEDS Supporting new projects being developed to respond to Hôpital Charles-Le Moyne's most urgent needs	\$5 million
TOTAL	\$30 MILLION

INVEST IN HEALTH TODAY

Invest where you'll make a difference.

Dr. Étienne Beaudouin, a young talent putting his knowledge to work for internal medicine.

SUPPORTING HÔPITAL CHARLES-LE MOYNE,
IS TO SUPPORT AN AVANT-GARDE HOSPITAL!

Did you know...

- + The Horizon 4 Saisons mental health program has been extended to all of the other CISSSs in the Montérégie?
- + Hôpital Charles-Le Moyne was the 1st hospital centre in Québec to acquire a neurosurgical laser for adults?
- + EZResus won the Canadian Space Agency's Deep Space Health Challenge?

These innovations save lives in our community and beyond.
Today, and for many years to come.

WITH 60 YEARS UNDER
OUR BELT, WE FOCUS ON
WHAT REALLY COUNTS:
ACCESS TO THE BEST
HEALTH CARE ON THE
TERRITORY. THAT'S OUR
#1 PRIORITY!

To continue to be one of the best hospitals in Canada, we need to invest relentlessly in research and teaching, equipment, staff and infrastructure.

That's the key to offering the best care to patients and attracting the best professionals.

It's time to invest where it counts and to transform health care. **And to do that, we need you!**

“ You're at the heart of
the transformation in
health care!

Offering patients access to the best health care requires major investments. Government funding alone cannot cover all of the essential costs. That's where you come in.

Partners like you, through hospital foundations, are **precious allies in driving the development of our hospitals.**

At the Foundation, we're there to achieve this dream and to support you in your philanthropic actions. To connect your interests to the needs of the Hospital and its patients.
To change lives.

Thank you for contributing generously.

Nathalie Boudreau
President and Executive Director
Fondation Hôpital Charles-LeMoyne
